THE COMPLETE PROPERTY

# Interior + exterior

Let buyers explore the home and its surroundings in one connected presentation.

FROM

£750

GBP

One home · Interior up to 80 m² · One level

Typically 2-4 weeks

## What is included

01 **Interior and exterior**

One single-level interior, up to 80 m², and the exterior of the same house, with its immediate garden and access.

02 **Furniture and finishes**

Furniture from my existing collection, standard finishes, landscaping and lighting.

03 **Browser walkthrough**

An interactive browser experience for phone and desktop, supplied as a complete web package.

04 **Revisions**

Two minor revision rounds for the combined project.

Works in your browser. No app required.

PACKAGE DETAILS

# Before we start

I confirm the scope, total price and delivery schedule in your written quote before work begins.

## What I need from you

Dimensioned floor plans and elevations for the same home, the interior floor area, and a site plan for the garden and access. Reference images for materials and style.

## Minor revisions

Small changes within the agreed design, such as colours, finishes or object placement. Each round is one collected list of feedback. Additional work is quoted and agreed before I add it.

## Quoted separately

Larger homes, extra floors, bespoke objects, wider surroundings and additional interactions.

## Delivery

Typically 2-4 weeks from the agreed start date, once I have your complete project information. I confirm the schedule with your quote; feedback timing can affect delivery.

## Delivery and hosting

Your complete web package and publication instructions are included. Optional DoorWander hosting is £60 per project for 12 months. See pages 3-4 for delivery, integration and support details.

## Tell me about your property

Send your plans, approximate size and preferred completion date.

DELIVERY & WEBSITE INTEGRATION

# Your project. Your choice.

Your project price includes the completed interactive walkthrough as a web package, together with publication instructions. You can arrange your own hosting or choose optional hosting managed by DoorWander.

OPTION 1 / INCLUDED IN YOUR PROJECT PRICE

## Complete web package

You receive a ZIP folder containing the HTML, CSS, JavaScript and assets needed to publish your walkthrough, plus instructions for your website administrator or agency.

The package is prepared and tested as a standalone web experience. Your administrator can publish it in a separate folder or on a dedicated subdomain using compatible hosting.

No additional DoorWander hosting charge. Any hosting fees are paid directly to your chosen provider.

## How it connects to your website

Your administrator can add a button or link that opens the walkthrough on its own page. Displaying the tour inside your website requires iframe support and suitable settings on both the tour and your website.

For your own hosting, the server must support static web files over HTTPS, including JavaScript modules and the supplied assets. Some website builders restrict uploads or embedded content; your administrator should confirm compatibility before publication.

## Who handles the integration?

DoorWander supplies the tested walkthrough and guidance. Your website administrator handles hosting setup and changes to your existing website. Website design and CMS administration are outside the standard project scope.

OPTION 2 / OPTIONAL ADDITIONAL SERVICE

# Hosting by DoorWander

£60 per project for 12 months from publication.
Paid upfront, in addition to the project creation price. No automatic renewal.

## A direct link to your walkthrough

DoorWander publishes your walkthrough and provides a direct HTTPS link. You can share it with clients in emails, presentations, social posts and property listings that allow external links.

Your website administrator can add this link to a button on your website, or embed the walkthrough where compatible. DoorWander supplies the link and integration guidance; your administrator makes changes to your website.

## Hosting and technical support

Hosting covers publication and keeping the delivered walkthrough online for the agreed period. The included traffic allowance and technical support are confirmed in your written quote. Any additional capacity or work is discussed and priced before you approve it.

## Renew or move to your own hosting

Your complete web package remains included. Before the hosting period ends, you can choose to renew or move it to your own compatible hosting. Renewal is optional and quoted in advance. DoorWander hosting ends on the agreed date if it is not renewed.

## Viewing and future changes

Visitors need an internet connection and a compatible modern browser with WebGL enabled. Performance depends on their device, browser and connection.

Changes to the layout, extra rooms, new features and later design updates are quoted separately. The web package contains the browser walkthrough; editable CAD, BIM or Blender files are supplied only if specifically agreed.
